Dear Mr. Hiring:

Are you in need of an experienced video and film production professional with a strong ability to enhance productivity and customer service and catapult your current marketing strategy to the next level?

With my current company, I developed a production process that allowed a host to record shows for an entire month during one in-studio session. This created opportunities for me to customize services to meet each client's unique needs, while maintaining an entertaining environment and continuously developing strategies upgrade and improve radio shows and advertisements. During my independent film and video production consulting projects, I exceeded expectations of various clients and led to subsequent contracts to produce quality videos and photographs that best represented each company's branding strategy.

Let's schedule some time to further discuss how my talents closely match the needs of your organization. Thanks in advance for your time and consideration.

Sincerely,

Jim Jobseeker
